INLET1   **INLET2**

IN/OUT1   **IN/OUT2**

1. The Ion has four G1/4" ports. The bottom two can be used for either an inlet or outlet. Attach the hose fittings to your ports of choice. The unused port can be blocked with the provided G1/4" plugs.
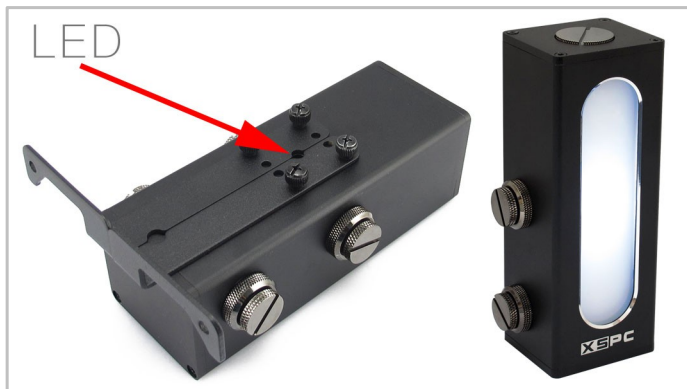

INLET/FILL ONLY

2. The fill cap port can also be used as an inlet with the use of a M20 to G1/4" adapter. The fill cap cannot be used an an outlet.

120MM FAN   140MM FAN

105MM   125MM

3. The bracket can be used with both 120, or 140mm fan mounts. If you are using 120mm fans use the outer holes and for 140mm fans, use the inner holes.

4. The bracket rotates to four different positions. This allows you to mount the Ion at the top, left, right, or bottom of the case.

LED

5. Push the LED into the mounting hole at the back of the Ion.

6. When the Ion is connected to all other components, you can remove the fill cap and fill the reservoir. The coolant level should be at the top of the window.
